

Form B – Notice of dispute

To be completed by owner when there is a dispute with respect to the customer's eligibility to become a micro-generator or on the question of extraordinary costs.

~~Information required must include the following~~ The following information is required:

Contact person for the dispute notice:

Name:

Phone:

Is owner represented by another person?

Yes ☐ No ☐

If yes, provide name and contact information (if no, leave blank):

Name:

Phone:

Is a copy of the micro-generation project notice (Form A) attached?

Yes ☐ No ☐

Type of dispute:

- ☐ Qualification ([see below](#))
(Micro-Generation Regulation - Sections 2(2) or 2.1(2))
- ☐ Extraordinary costs
(Micro-Generation Regulation - Sections 4(3) or 4(3.1))

Dispute rationale:

If dispute is related to Section 2(2) or 2.1(2), ~~has owner served notice on customer within 14 days?~~

~~Has the wires owner served the customer with notice within 14 days?~~ ☐es ☐No

Please provide the following information, if available:

- 1: The maximum acceptable system size for the customer's actual past or projected future consumption, as determined by the wires owner.
- 2: The customer's annual electricity consumption for the past 12 months (for existing sites).
- 3: The customer's average annual electricity consumption for the past three and five years (if available). If the customer does not have consumption data dating back to three or five years, please provide the average annual electricity consumption for the maximum amount of time available and specify the time period used.

4: The report or energy projections that the wires owner used to project future annual consumption (for new sites).
Please attach document(s) separately.

5: The approximate percentage discrepancy between the customer's annual electricity consumption and the expected generation of the proposed system (e.g.: if consumption is 100 kW and generation is expected to be 200 kW, respond with '200%').

6: Any calculations representing the output of the proposed microgeneration unit, either conducted by the wires owner or provided by the customer's installer. Please specify all known assumptions and variables.
Please attach document(s) separately.

7: If the customer has requested a system size that is expected to generate well in excess of annual consumption due to future load increases, the evidence that the customer has supplied to the utility to justify the load increases.
Please attach document(s) separately.

8: Manufacturer documentation relating to any proposed inverter derates, attached separately.

Yes ☐ No ☐

Dispute rationale:

Please list any Other information attached:

Date of submission: _____
