Any report that was prepared by an expert, and which is being filed in support of an intervener's position, must clearly state the qualifications of the expert and the name of the intervener who directed that the report was to be prepared. Please be aware that the author of any report or other written evidence that an intervener expects the Commission to rely upon must be available to be cross-examined at the hearing.

Alternative ways for Indigenous Elders and community members to present oral evidence

The Samson Cree Nation and Louis Bull Tribe have standing in this proceeding. The Commission is interested in whether these groups anticipate having Elders, Knowledge Holders and/or community members provide oral evidence to the Commission, and if so whether there are cultural protocols that should be followed or accommodations that would help them feel more comfortable. For example, the Commission is able to hold Indigenous knowledge sessions to facilitate the provision of evidence in a manner that respects and upholds traditional knowledge sharing protocols.

If the Samson Cree Nation or the Louis Bull Tribe are interested in any additional or alternative process steps, the Commission requests that they notify the Commission by **February 3, 2026**. Depending on the requests received, the Commission may modify the process schedule or organize a technical session between parties to finalize logistics.

In particular, if the Samson Cree Nation or the Louis Bull Tribe are interested in having an Indigenous knowledge session, to facilitate scheduling the Commission requests information regarding: the amount of time requested, preferred location, and their availability in February and March 2026 to participate in such a session. Should you have any questions, please contact Amanda Spyce, Indigenous Consultation Lead, at 403-592-4547 or by email at amanda.spyce@auc.ab.ca.
