

eFiling System Updates
Release 2.01.02
December 13, 2025

ID	Title	Description
898	Missing unsophisticated user in non-registered parties list	When representatives create and register a new unsophisticated user, the user is now correctly displayed under the Non-Registered Parties tab, ensuring the representative can select and register the user.
901	Page specific hyperlink not responding	Users can now open a bookmarked eFiling PDF document directly to a specific page. To link directly to a specific page add the page query: ?page=[page number] to the end of the document's URL. When bookmarking or sharing the modified link, the document will open to the specified page in the page query.
909	Incorrect version opening for revised confidential documents	Opening a revised confidential document via the document's filename link now correctly opens the latest version.
911	Intervener registration not available to group representative	Functionality for external users to register to represent a group and subsequently registering as an intervener themselves is now restored.
915	Notification subscriptions not retained	Notification default subscription settings are now being retained after a proceeding restructure.
